## **1. Introduction**

This technical sheet forms an integral part of the contract between Circus Ronaldo/vzw Circus Van Vlaanderen and the organiser of the performance. To ensure a smooth and pleasant collaboration, we therefore recommend that you contact Circus Ronaldo immediately if you have any doubts or uncertainties.

### **1.1. Contacts Circus Ronaldo**

Pepijn Ronaldo (Tour management & Technician)

Telephone: +32 493 18 07 08

E-mail: [pepijnronaldo@hotmail.be](mailto:pepijnronaldo@hotmail.be)

### **1.2. Frans Brood Productions**

For more information about the current selection of Circus Ronaldo shows please contact Frans Brood Productions. Contract negotiations are always handled by Frans Brood Productions.

#### **Frans Brood Productions**

Land van Waaslaan 82 9040 Gent

België

Telephone number: +32 9 234 12 12

E-mail: [info@fransbrood.com](mailto:info@fransbrood.com) or [inti@fransbrood.com](mailto:inti@fransbrood.com)

## 2. The organiser provides

### 2.1. Site specifications

- Minimum 25m by 25m of open, flat space, with a free height of approximately 8.50m
- Suitable for driving 30 anchors into the ground.  
(The organiser is responsible for marking underground lines, like electricity, water, etc.)
- Accessible with heavy vehicles (in all weather conditions):  
Truck + trailer: 17m long & approximately 15 tons
- Access road at least 4m wide

If the site proves to be inaccessible due to weather conditions the organiser must find a new location. The site must be completely free as of the arrival date.

#### 2.1.1. Unacceptable sites

- sites that flood or become muddy in bad weather
- dusty sites
- sandy sites

### 2.2. Electricity

- 1 connection 32A 3x400V + N  
(Available from arrival to departure)
- We prefer not to use a generator. If this is the only option then the generator must be electronically stabilised. Mechanically stabilised generators are not acceptable.

### 2.3. Water

- 1 connection (gardena) with drinkable water (available from arrival to departure)

### 2.4. Toilets and Sanitary Facilities

- Toilet and hot shower in the direct vicinity of the circus tent  
(Available 24/7 from arrival to departure)

### 2.5. Garbage container

- 1 garbage container available to Circus Ronaldo

### 2.6. Stagehands

- The organiser will provide 6 motivated people to help with the set-up and teardown of the tent and grandstand (physical work). They must be fully available during the following schedule and preferably have experience of setting up tents and grandstands.

2 days before the 1 <sup>ste</sup> show.	Arrival +/- 16h (to discuss)	<ul style="list-style-type: none"> <li>- Tent is being measured out.</li> <li>- Vehicles are being put in place.</li> <li>- Electricity and water are being connected.</li> <li>- Toilet and shower facilities are being indicated</li> </ul>	1 technician of the organization
1 day before the 1 <sup>ste</sup> show.	9h – 18h	<ul style="list-style-type: none"> <li>- Setup of the tent and grandstand</li> </ul>	6 motivated people (physical work)
Day of the show	2 hours before the show until the end	<ul style="list-style-type: none"> <li>- permanent security presence</li> </ul>	1 technician
Day after the last show	9h – 18h	<ul style="list-style-type: none"> <li>- Teardown of the tent and grandstand</li> </ul>	6 motivated people (physical work)

### 2.7. Air conditioning/ Heating the tent

- If the temperature during the performance is below 16°C, the organiser must provide heating. (The tent is approximately 655 m<sup>3</sup>)
- The cost of air-conditioning/ heating rental *and* the cost of the water and electricity consumed are to be covered by the organiser.
- The choice of unit (type/strength) and the length of the hose should be decided in consultation with Circus Ronaldo.
- Due to noise nuisance, Circus Ronaldo asks that a sufficiently long hose be attached to the heating so that the heating unit can stand as far as possible from the tent and heating can be provided without too much disturbance.

### 2.8. Security

- The provision of (night)security must be discussed with Circus Ronaldo. The costs for this will be for the organiser.

### 2.9. Permits

- The organiser must be in possession of the necessary approved contracts and permits from the council authorities, police and fire service.
- If any contracts or permits are missing the organiser cannot plead force majeure.

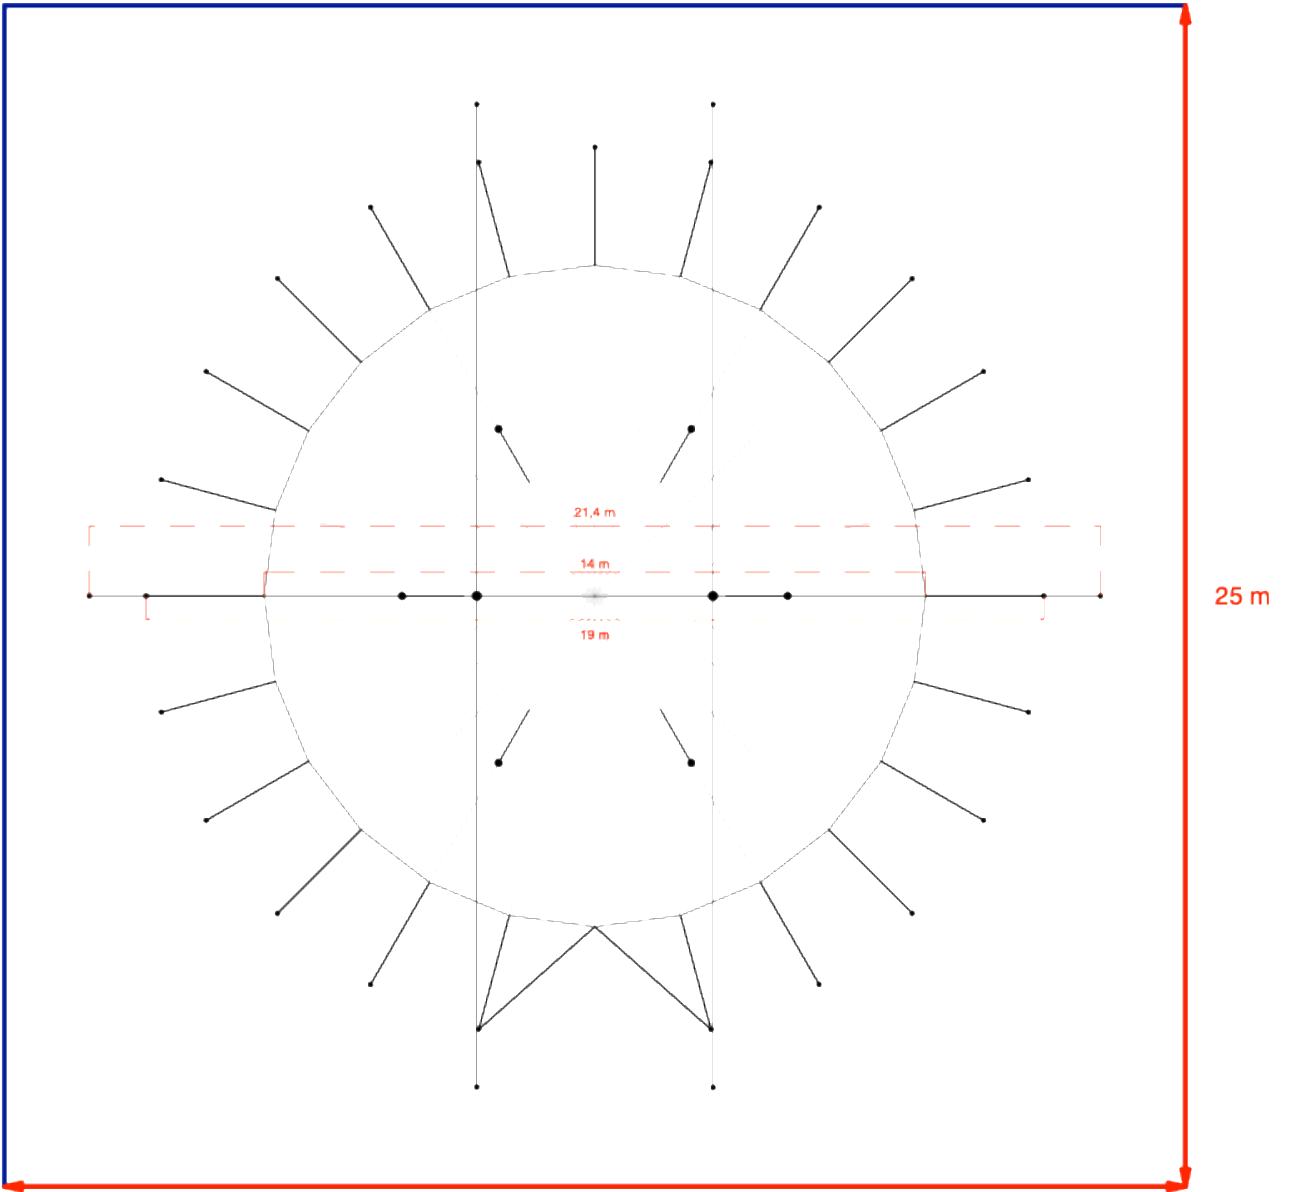

### 3. Miscellaneous

#### 3.1. Low-emission zone

- If the event is located in a low-emission (environmental) zone, the organiser must inform Circus Ronaldo and, if necessary, provide the necessary permits.  
The costs will be borne by the organiser.

#### 3.2. Wheelchairs

- The performance is accessible for four wheelchair users.  
(The number of wheelchairs must be communicated to Circus Ronaldo before the performance.)
